Introduction

Hello! I'm Abdul Mannan, a motivated and detail-oriented junior web programmer, eager to contribute my skills and enthusiasm to a dynamic team. With a foundation in web development and a commitment to staying current with industry trends, I bring a fresh perspective and a proactive approach to solving challenges.

- **Python**
- **JavaScript**
- **Django**
- **Flask and Fast API**
- **Vue.js**
- **Frontend and Backend**

EDUCATION

Bachelor Of Honor's Degree (B.Sc.). National University (Dhaka, Bangladesh)
- GPA in Major (*Physics*): 3.18/4.00, Overall CGPA: 3.18/4.00

Higher Secondary Certificate (H.S.C). Narsingdi Govt. College (Narsingdi Sadar, Narsingdi)
- GPA in Major (*Science*): 5.00/5.00, Overall GPA: 5.00/5.00

PROFESSIONAL SKILLS

I'm Junior Web Developer, And I'm acquired knowledge about -

- **Django Framework:** I have good understanding and did many projects using Django Framework. Django is my go-to web framework to do web development. And I'm do frontend as well as backend development.
- **Flask & Fast API:** I am also comfortable using flask and fast-api to make small size web app or micro services.
- **Vue.js:** I know how to implement vue.js for frontend development although I used Django for backend functionality.
- **Git & GitHub:** I am familiar with git and GitHub operation.
- **Database:** I worked with MySQL and PostgreSQL as my project backend server.
- **Computer Networking:** I have basic knowledge how internet works. Basic networking and methods, OSI model, Routing, IP address etc.
- **OS:** I am comfortable working with both Windows and Linux based machine.
- **Others:** I have basic knowledge how digital marketing works, good at using Adobe Software's (Photoshop, Illustrator, Premier pro), Expert using MS Office Application (Word, Excel, PowerPoint).

STUDENT LIFE AND VOLUNTEERISM

In University – Role: My major was physics. And I had 4 credits on Programming language. In College, I have studied C++ and Java. I voluntarily helped students who had difficulty learning those languages. I helped them to understand the language and often reviewed their code and solved them.

OTHER RELEVANT INFORMATION

Languages: Bangla (Native), English (Communicative)

RELEVANT PROJECTS

E Commerce Site: A **Django** based complete E commerce site with full support of frontend and backend –
Project link: https://github.com/Senpaioka/Ogani---E-commerce-site
